Vendor Commodity Code Sign Up

This document provides a list of commodities used by The State of Alabama to procure goods and services. Vendors with a VSS account may sign up to receive bid notifications based on commodities your company provides. By signing up for 3 or 5-digit codes, your VSS account holders will receive email notifications for published solicitations containing commodities within those groups. Signing up for 3- digit codes will result in a larger number of notifications since the category is more generic, whereas 5-digit codes allow you to be more specific with the types of solicitations for which you will receive notification. The list below also contains detail at the 7-digit commodity level to assist you in selecting 3 or 5-digit codes that may apply to your business. Signing up at the 3 or 5-digit level will provide notification for bids at the 7-digit commodity level. Email notices will contain the following information:

1. Solicitation number
2. Description of the solicitation
3. A link that will route you directly to the solicitation details after logging in

Please see the table below, which contains all active State of Alabama commodity codes. The State encourages you to sign up for any and all commodities that you wish to be notified for business opportunities. This will increase your chance of doing business with The State of Alabama.
